Intelligent Information Systems Lab

Winter Semester 2024/2025

Harry Scells, Tim Hagen, and Martin Potthast

Deep Semantic Learning
University of Kassel and hessian.AI

Agenda

- Last week

  - Provided an outline of the project

  - Provided an intro to text classification

- This week

  - Make sure you have Gitlab set up to store presentations and code

  - Report on your findings on sentiment classification

  - Introduction to representation learning [temir.org]

- Next week

  - Have a go at using word embeddings for classification [code.google.com]

  - Present your findings next week, again 10-15mins
